P. Goujon, S. Lavelle, P. Duquenoy, K. Kimppa, V. Laurent (Eds.)

The Information Society: Innovation, Legitimacy, Ethics and Democracy In Honor of Professor Jacques Berleur s.j.

Series: IFIP Advances in Information and Communication Technology, Vol. 233

► Celebrates the work of Jacques Berleur
► Provides a comprehensive source of information on various aspects of the Information Society

International Federation for Information Processing

The IFIP series publishes state-of-the-art results in the sciences and technologies of information and communication. The scope of the series includes: foundations of computer science; software theory and practice; education; computer applications in technology; communication systems; systems modeling and optimization; information systems; computers and society; computer systems technology; security and protection in information processing systems; artificial intelligence; and human-computer interaction.

Proceedings and post-proceedings of referred international conferences in computer science and interdisciplinary fields are featured. These results often precede journal publication and represent the most current research. The principal aim of the IFIP series is to encourage education and the dissemination and exchange of information about all aspects of computing.
