R. Klopfleisch (Ed.)

**Veterinary Oncology**

A Short Textbook

► First concise graduate textbook on Veterinary Oncology
► Covers the most common tumor types in domesticated animals
► Presents state of the art strategies in cancer diagnostics and treatment

This highly readable textbook provides a comprehensive but concise overview of the principles of oncogenesis in veterinary medicine, discussing selected tumors in domestic animals in detail, and addressing cancer diagnostics and therapy. All chapters are illustrated with histological and radiological images to enhance readers’ understanding. Accordingly, the book is a must-have reference guide for all graduate and advanced undergraduate students in Veterinary Medicine with a special interest in oncology.
