Journal of Public Health
From Theory to Practice
Editor-in-Chief: J. Kugler

▶ An interdisciplinary publication for the discussion and debate of international public health issues
▶ Includes contributions from epidemiology, health economics, environmental health, management, social sciences, ethics, and law
▶ Offers a scientifically sound rationale for personal, social and political measures of intervention
▶ 94% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

The Journal of Public Health: From Theory to Practice is an interdisciplinary publication for the discussion and debate of international public health issues, with a focus on European affairs. It describes the social and individual factors determining the basic conditions of public health, analyzing causal interrelations, and offering a scientifically sound rationale for personal, social and political measures of intervention. Coverage includes contributions from epidemiology, health economics, environmental health, management, social sciences, ethics, and law.
