Administration and Policy in Mental Health and Mental Health Services Research

Editor-in-Chief: L. Bickman

- Advances research on services and the practice and process of administration in the mental health setting
- Publishes peer-reviewed, original empirical research articles and administrative and policy notes
- Aims to improve the effectiveness of mental health and related human service programs

Administration and Policy in Mental Health and Mental Health Services Research aims to improve the effectiveness of mental health and related human service programs by advancing research on services and the practice and process of administration in the mental health setting.

We welcome studies that are conducted and reported according to well-accepted guidelines in the research community, such as the CONSORT statement (randomized controlled trials), the PRISMA statement (systematic reviews and meta-analyses), STROBE (observational studies), SRQR (qualitative research) and CARE (case reports).

Impact Factor: 2.616 (2016), Journal Citation Reports®
