Cell and Tissue Banking
International Journal for Banking, Engineering and Transplantation of Cells and Tissues
Incorporating Advances in Tissue Banking
Editor-in-Chief: R. von Versen

▶ A forum for disseminating information to scientists and clinicians involved in the banking and transplantation of cells and tissues
▶ Publishes original papers in such areas as quality assurance and control of banked cells and tissues; preservation and sterilization methods; clinical applications of banked cells and tissues; standards of practice in procurement and many more
▶ Offers full length papers, reviews and short communications for rapid publication
▶ 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Cell and Tissue Banking provides a forum for disseminating information to scientists and clinicians involved in the banking and transplantation of cells and tissues. Cell and Tissue Banking is an international, peer-reviewed journal that publishes original papers in such areas as quality assurance and control of banked cells and tissues; preservation and sterilization methods; clinical applications of banked cells and tissues; standards of practice in procurement, processing, storage and distribution; and ethical and medico-legal issues. Research is presented in the form of full-length papers describing original work; short communications for rapid publication; and mini- and full-length reviews of topical issues.

Impact Factor: 1.331 (2016), Journal Citation Reports®
