Inflammation

Editor-in-Chief: B.N. Cronstein

► Reports on the latest international advances in understanding and treating inflammation
► Covers acute and chronic inflammation, pharmacology, cytotoxicology and among other topics
► Offers papers, short articles, proceedings and more
► 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Inflammation presents the latest international advances in experimental and clinical research on the physiology, biochemistry, cell biology, and pharmacology of inflammation. Published items include full-length scientific reports, short definitive articles, and papers from meetings and symposia proceedings. The journal's coverage extends to acute and chronic inflammation; mediators of inflammation; mechanisms of tissue injury and cytotoxicity; pharmacology of inflammation; and clinical studies of inflammation and its modification.

Impact Factor: 2.955 (2016), Journal Citation Reports®
