Journal of Materials Science

Editor-in-Chief: C.B. Carter

- ▶ Explores the relationship between structure, properties and uses of materials
- ▶ Publishes reviews, full-length papers, and short communications
- ▶ Firmly established as a forum for scientists investigating the structure and properties of all engineering materials
- ▶ 99% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again
- ▶ Free app available on iTunes and Google Play Store

The Journal of Materials Science publishes reviews, full-length papers, and short Communications recording original research results on, or techniques for studying the relationship between structure, properties, and uses of materials. The subjects are seen from international and interdisciplinary perspectives covering areas including metals, ceramics, glasses, polymers, electrical materials, composite materials, fibers, nanostructured materials, nanocomposites, and biological and biomedical materials. The Journal of Materials Science is now firmly established as the leading source of primary communication for scientists investigating the structure and properties of all engineering materials.

Impact Factor: 2.599 (2016), Journal Citation Reports®
