International Journal of Mechanics and Materials in Design
Editor-in-Chief: S.A. Meguid

▸ Features recent advances and original works in mechanics and materials engineering and their impact on the design process
▸ Presents topics in an integrated, highly focused and coherent format
▸ Keeps readers abreast of recent developments and enables them to exchange ideas concerning the use of mechanics and materials in design

The International Journal of Mechanics and Materials in Design features recent advances and original works in mechanics and materials engineering and their impact on the design process. The journal enables mechanical, aeronautical, civil, automotive, biomedical, chemical, and nuclear engineers as well as other researchers and scientists to stay abreast of the latest developments. Moreover, it enables them to exchange ideas concerning the use of mechanics and materials in design.

Among the topics readers will discover are intelligent design, advanced materials in design, design analysis and optimization, experimental mechanics in design, and design case studies. These topics and more are explored in an integrated, highly focused and coherent format.

Impact Factor: 2.102 (2016), Journal Citation Reports®
