Natural Resources Research
Editor-in-Chief: J. Carranza

► Selected for coverage in SCI Expanded, JCR/Reports/Science Edition & Current Contents ©/Physical Chemical & Earth Sciences
► Sponsored by the International Association for Mathematical Geosciences (IAMG), and co-sponsored by the Energy Mineral Division of the American Association of Petroleum Geologists (AAPG/EMD)
► Covers a wide span of topics related to natural resources of all kinds
► Includes assessment strategies for exploration, evaluation, risk

This journal publishes quantitative studies of natural (mainly but not limited to mineral) resources exploration, evaluation and exploitation, including environmental and risk-related aspects. Typical articles use geoscientific data or analyses to assess, test, or compare resource-related aspects. NRR covers a wide variety of resources including minerals, coal, hydrocarbon, geothermal, water, and vegetation. Case studies are welcome.
