95% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again.

Neurochemical Research is devoted to the rapid publication of studies that use neurochemical methodology in research on nervous system structure and function. The journal publishes original reports of experimental and clinical research results, perceptive reviews of significant problem areas in the neurosciences, brief comments of a methodological or interpretive nature, and research summaries conducted by leading scientists whose works are not readily available in English.

Impact Factor: 2.581 (2016), Journal Citation Reports®
