Transition Metal Chemistry
Editor-in-Chief: M.C. Durrant

- Deals with all aspects of the preparation of transition metal-based molecular compounds
- Examines structural, physical, kinetic, catalytic and biological properties
- Considers use in chemical synthesis as well as diverse applications
- 98% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Transition Metal Chemistry is an international journal dealing with all aspects of the preparation of transition metal-based molecular compounds, including their structural, physical, kinetic, catalytic and biological properties, their use in chemical synthesis as well as their application in the widest context, their role in naturally occurring systems and more.

Impact Factor: 1.358 (2016), Journal Citation Reports®
