Management Review Quarterly

Systematic Literature Reviews, Meta-Analyses, and Replication Studies

Editor-in-Chief: J. Block

- Features systematic literature reviews spanning across all fields of business administration
- Presents meta-analytic investigations of major research topics
- Focuses on thorough replications of significant research results

Management Review Quarterly (MRQ) is a peer reviewed academic journal that specializes in publishing state-of-the-art reviews in all areas of business administration. Its main goal is to keep academics and practitioners up to date on the latest developments and insights in business based and related research. Review articles published in MRQ summarize and discuss published research in a field in an original way, point towards new directions with other disciplines, and identify open questions related to a chosen research topic.

MRQ was founded in 1951 at the Hochschule für Welthandel in Vienna, Austria (now WU Vienna University of Economics and Business) as a German language journal under the title "Journal für Betriebswirtschaft (JfB)". This makes MRQ/JfB one of the oldest research based business journals internationally.

Official citation from 2014 onwards: Manag Rev Q

Until 2013 officially cited as: J Betriebswirtsch

Since 2014 the Journal für Betriebswirtschaft is published under a new title: Management Review Quarterly
