Paleontological Journal
Editor-in-Chief: A. Rozanov

► Presents original work on the anatomy, morphology, and taxonomy of fossil organisms
► Also explores the distribution, ecology and origin of fossils
► Presents studies on evolution of organisms, ecosystems, and biosphere, along with invaluable information on biostratigraphy
► Places emphasis on Eastern Europe and Asia

Paleontological Journal (Paleontologicheskii zhurnal) is the principal Russian periodical in paleontology. The journal publishes original work on the anatomy, morphology, and taxonomy of fossil organisms, as well as their distribution, ecology, and origin. It also publishes studies on the evolution of organisms, ecosystems, and the biosphere and provides invaluable information on global biostratigraphy with an emphasis on Eastern Europe and Asia.

Impact Factor: 0.480 (2016), Journal Citation Reports®
