Materials and Structures
Editor-in-Chief: P. Lura
Deputy Editor-in-Chief: G. Plizzari; N. Roussel

- Provides a unique interdisciplinary forum for new research findings on the performance of construction materials
- Flagship publication of the International Union of Laboratories and Experts in Construction Materials, Systems and Structures (RILEM)
- Publishes comprehensive reports prepared by the RILEM’s technical committees
- 94% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Materials and Structures, the flagship publication of the International Union of Laboratories and Experts in Construction Materials, Systems and Structures (RILEM), provides a unique international and interdisciplinary forum for new research findings on the performance of construction materials. A leader in cutting-edge research, the journal is dedicated to the publication of high quality papers examining the fundamental properties of building materials, their characterization and processing techniques, modeling, standardization of test methods, and the application of research results in building and civil engineering. Materials and Structures also publishes comprehensive reports prepared by the RILEM’s technical committees.

Impact Factor: 2.607 (2016), Journal Citation Reports®
