Journal of Neurodevelopmental Disorders
Editor-in-Chief: J. Piven

▶ Unique venue for comparing and contrasting the full range of neurodevelopmental disorders
▶ Publishes topical article collections including ‘Fragile X premutation’ and ‘Reward processing in autism’
▶ 100% of authors surveyed in 2016 would recommend the journal to a colleague

*Journal of Neurodevelopmental Disorders* is a unique venue for interdisciplinary research across the full range of neurodevelopmental disorders. Integrating neurology, developmental neurobiology, genetics, psychiatry and psychology, *Journal of Neurodevelopmental Disorders* allows for the comparison of the phenomenology, mechanisms and etiologies that underlie neurodevelopmental disorders, furthering our knowledge and understanding of these complex conditions. The journal encourages cutting-edge research across topics including autism, fragile X syndrome, Prader-Willi and Angelman Syndrome, dyslexia, specific language impairment and fetal alcohol syndrome.

Impact Factor: 3.582 (2016), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access
