Journal of Coatings Technology and Research
Editor-in-Chief: M. Nichols

- Covers research, knowledge and new ideas in protective and decorative coatings
- Presents papers, notes and letters on research, processes, applications, and more
- Published in cooperation with the American Coatings Association (ACA)
- 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Journal of Coatings Technology and Research (JCTR) is a forum for the exchange of research, experience, knowledge and ideas among those with a professional interest in the science, technology and manufacture of functional, protective and decorative coatings including paints, inks and related coatings and their raw materials, and similar topics.

JCTR offers Research papers, describing investigations of chemistry, physics, materials science and engineering studies relevant to surface coatings; Applications papers on experimental solutions for technological problems in the design, formulation, manufacture, application, use and performance of surface coatings; Review articles offering broad, critical overviews of advances in coatings science; and Brief Communications, presenting notes and letters on research topics of limited scope or immediate impact.

JCTR is published in cooperation with the American Coatings Association (ACA).

Impact Factor: 1.557 (2016), Journal Citation Reports*
