Clinical Orthopaedics and Related Research®
Editor-in-Chief: S.S. Leopold

► As of January 1, 2018 Springer will no longer be the published of Clinical Orthopaedics and Related Research
► Subscribers will maintain access to paid for content through SpringerLink
► Forthcoming issues will be available via Wolters Kluwer

Clinical Orthopaedics and Related Research® is a leading peer-reviewed journal devoted to the dissemination of new and important orthopaedic knowledge.

CORR® brings readers the latest clinical and basic research, along with columns, commentaries, and interviews with authors.

CORR® is an international, well-read, and well-cited journal: Last year, CORR® articles were downloaded 460,000 times; over 60% of those downloads came from readers outside North America. Citation metrics put CORR® at or near the top of the list of orthopaedic journals.

CORR® publishes content of value to both generalists and specialists on all aspects of musculoskeletal research, diagnoses, and treatment:

• Original articles focusing on timely clinical issues.

• Research articles highlighting the latest in clinically relevant basic science of musculoskeletal diseases and their treatments.

• Monthly "Symposia" devoted to a single topic offering the generalist reader an overview of a field, but providing the specialist current in-depth information.

• Regular "Proceedings" issues containing the best research from the most important meetings in the speciality, including The Hip Society, The Knee Society, The Musculoskeletal Tumour Society and The Musculoskeletal Infection Society.

Impact Factor: 3.897 (2016), Journal Citation Reports®
