Environmental Health and Preventive Medicine

Editor-in-Chief: H. Inadera

- The official journal of the Japanese Society for Hygiene
- Provides a comprehensive approach to prevention and environmental health-related issues vis-à-vis diverse environmental factors
- Published bimonthly exclusively online
- 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Environmental Health and Preventive Medicine (EHPM) brings a comprehensive approach to prevention and environmental health related to medical, biological, molecular biological, genetic, physical, psychosocial, chemical, and other environmental factors. EHPM features definitive studies on human health sciences, including regular articles, short communications, and review articles. It provides comprehensive and unique information to a worldwide readership.

Environmental Health and Preventive Medicine to become an Open Access Journal!

In corporation with BioMed Central, EHPM will start its new publication starting with the first issue in 2017.

Impact Factor: 1.133 (2016), Journal Citation Reports®
