KSCE Journal of Civil Engineering

Editor-in-Chief: H.-K. Kim

- ▶ **Multidisciplinary journal which focuses on all aspects of Civil Engineering**
- ▶ **Korea is strong at research in Civil Engineering, this is the premier Civil Engineering journal of the country**
- ▶ **International Editorial Board**

The KSCE Journal of Civil Engineering is a technical bimonthly journal of the Korean Society of Civil Engineers. The journal reports original study results (both academic and practical) on past practices and present information in all civil engineering fields.

The journal publishes original papers within the broad field of civil engineering, which includes, but are not limited to, the following: coastal and harbor engineering, construction management, environmental engineering, geotechnical engineering, highway engineering, hydraulic engineering, information technology, nuclear power engineering, railroad engineering, structural engineering, surveying and geo-spatial engineering, transportation engineering, tunnel engineering, and water resources and hydrologic engineering. Both theoretical and practice-oriented papers, including case studies and reviews, are encouraged.

From 2018, the journal will be published monthly including two special issues, consisting of 35-40 papers per issue.

Impact Factor: 0.812 (2016), Journal Citation Reports®
