Environmental Sciences Europe
Editor-in-Chief: H. Hollert

Articles published between 1989 and 2010 are not published as open access!

Environmental Sciences Europe, formerly known as Umweltwissenschaften und Schadstoff-Forschung (UWSF), is a peer-reviewed open access journal published under the brand SpringerOpen. It is an international journal, with a broad scope covering all aspects of environmental sciences, including the main topic regulation.

The journal provides easy access to information on environmental issues at the regional and European level and gives authors the possibility to reach a broader, international readership.

- Environmental Sciences Europe is published under the brand SpringerOpen, Springer's new range of fully open access journals
- The journal's main language is English
The journal went open access in 2011, which means that all articles published since then are freely available online.

Giving authors in their area of expertise the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
