International Journal of Behavioral Medicine
Official Journal of the International Society of Behavioral Medicine
Editor-in-Chief: C. Lee

▶ Explores interactions among behavioral, psychosocial, environmental, genetic and biomedical factors relevant to health and illness
▶ Covers biobehavioral mechanisms; clinical studies on diagnosis, treatment and rehabilitation; and more
▶ Official publication of the International Society of Behavioral Medicine (ISBM)
▶ 95% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

The International Journal of Behavioral Medicine (IJBM) is the official publication of the International Society of Behavioral Medicine (ISBM). It presents original research and integrative reviews on interactions among behavioral, psychosocial, environmental, genetic and biomedical factors relevant to health and illness. The scope of the Journal extends from research on biobehavioral mechanisms and clinical studies on diagnosis, treatment and rehabilitation to research on public health, including health promotion and prevention. IJBM publishes research originating from all continents, inviting research on multi-national, multi-cultural and global aspects of health and illness.
