Biological Procedures Online
Editor-in-Chief: S. Li

- 5-Year Impact Factor of 1.792
- Rapid and thorough peer review - 28 days from submission to first editorial decision
- High visibility of your research

Biological Procedures Online is an open access, peer-reviewed journal which publishes improvements, and reviews of existing research methods and techniques in biomedicine. Aimed at a broad audience actively involved in laboratory practice, the journal places emphasis on multidisciplinary approaches that integrate methodologies from different areas of biomedical research. The journal is indexed by BIOSIS, CABI, CAS, Embase, Global Health, Google Scholar, PubMed, PubMed Central, Science Citation Index Expanded, Scopus and Zoological Record.

Impact Factor: 2.042 (2016), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access
