BMC Dermatology

▶ Considers articles on all aspects of skin disorders
▶ Across areas of biology and medicine
▶ Efficient, fair and friendly peer review service

*BMC Dermatology* is an open access journal publishing original peer-reviewed research articles in all aspects of the prevention, diagnosis and management of skin disorders, as well as related molecular genetics, pathophysiology, and epidemiology.

*BMC Dermatology* is part of the *BMC* series which publishes subject-specific journals focused on the needs of individual research communities across all areas of biology and medicine. We do not make editorial decisions on the basis of the interest of a study or its likely impact. Studies must be scientifically valid; for research articles this includes a scientifically sound research question, the use of suitable methods and analysis, and following community-agreed standards relevant to the research field.

Specific criteria for other article types can be found in the submission guidelines.

*BMC series - open, inclusive and trusted.*

Giving authors in their area of expertise the opportunity to publish open access

▶ High visibility thanks to unrestricted online access
▶ Rigorous peer-review and high-quality author services
▶ Creative Commons licensed – authors retain copyright
▶ Citation tracking and inclusion in bibliographic databases
▶ Easy compliance with open access mandates
