*BMC Palliative Care* is an open access journal publishing original peer-reviewed research articles in the clinical, scientific, ethical and policy issues, local and international, regarding all aspects of hospice and palliative care for the dying and for those with profound suffering related to chronic illness.

*BMC Palliative Care* is part of the *BMC* series which publishes subject-specific journals focused on the needs of individual research communities across all areas of biology and medicine. We do not make editorial decisions on the basis of the interest of a study or its likely impact. Studies must be scientifically valid; for research articles this includes a scientifically sound research question, the use of suitable methods and analysis, and following community-agreed standards relevant to the research field.

Specific criteria for other article types can be found in the submission guidelines.
