BMC Nursing

- Well-established open access journal
- Covers all aspects of nursing research, training, education and practice
- Rapid publication upon acceptance (average time from acceptance to publication is less than 10 days)

*BMC Nursing* is an open access journal publishing original peer-reviewed research articles in all aspects of nursing research, training, education, and practice.

*BMC Nursing* is part of the *BMC* series which publishes subject-specific journals focused on the needs of individual research communities across all areas of biology and medicine. We do not make editorial decisions on the basis of the interest of a study or its likely impact. Studies must be scientifically valid; for research articles this includes a scientifically sound research question, the use of suitable methods and analysis, and following community-agreed standards relevant to the research field.

Specific criteria for other article types can be found in the submission guidelines.

*BMC series - open, inclusive and trusted.*

Giving authors in their area of expertise the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates

Electronic access
