Geochemical Transactions
Editors-in-Chief: G.K. Druschel; Y. Furukawa

- Covers all areas of chemistry relating to materials and processes occurring in terrestrial and extraterrestrial systems
- Official journal of the Geochemistry Division of the American Chemical Society
- Fully open access peer-reviewed journal with high visibility through global exposure

Geochemical Transactions is ready to receive manuscripts on all aspects of geochemistry.

The official journal of the Geochemistry Division of the American Chemical Society.

Impact Factor: 1.710 (2016), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access
- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
