Nutrition & Metabolism
Co-Editor-in-Chief: M. Watford
Co-Editors-in-Chief: X. Lin
Managing Editor: L. Sun

► Highest Impact Factor Open Access nutrition journal
► Encourages author dialogue, through replies to letters and commentaries
► Diverse international Editorial Board

As well as publishing studies in obesity, diabetes, lipidemias, metabolic syndrome and exercise physiology, we encourage submission of manuscripts on the biochemistry of metabolism, cell signaling, molecular and cellular biology of nutrients, nutrient gene interactions and other areas that have implications for human nutrition and medicine. Current, but not exclusive, interests are metabolic effects of diet composition, interactions of macronutrients, effect of nutrients on gene expression, metabolic control and compartment models, nutritional effect of hormones, and genomic analysis of dietary phenomena.

Impact Factor: 2.974 (2016), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access
► High visibility thanks to unrestricted online access
► Rigorous peer-review and high-quality author services
► Creative Commons licensed – authors retain copyright
► Citation tracking and inclusion in bibliographic databases
► Easy compliance with open access mandates
