World Journal of Emergency Surgery

Editor-in-Chief: F. Catena; W. Biffl
Deputy Editor: L. Ansaloni
Managing Editor: A. Peitzman

► Official publication of the World Society of Emergency Surgery
► Publishes valuable surgical guideline articles and unique case reports
► Fast and thorough peer-review- average time to first decision 33.2 days

The field of emergency surgery spans a wide range of disciplines including the surgical and emergency medicine specialties. As such, the World Journal of Emergency Surgery is an indispensible resource for emergency surgeons and physicians, providing a forum for the rapid exchange of ideas and findings, and publication of state-of-the art research, including unique case reports and innovative surgical techniques. The journal also publishes key surgical guidelines from the World Society of Emergency Surgery, the journal’s official society.
