Biotechnology for Biofuels

Editor-in-Chief: D. Mohnen; C.E. Wyman; J.C. du Preez; M.E. Himmel

- Highest Impact Factor of any journal dedicated to biofuels research
- World renowned Editorial Board
- Covers all technology, in all aspects of biofuels, chemicals and other bioproducts research

Biotechnology for Biofuels is an open access peer-reviewed journal featuring high-quality studies describing technological and operational advances in the production of biofuels, chemicals and other bioproducts. The journal emphasizes understanding and advancing the application of biotechnology and synergistic operations to improve plants and biological conversion systems for the biological production of these products from biomass, intermediates derived from biomass, or CO2, as well as upstream or downstream operations that are integral to biological conversion of biomass.

Impact Factor: 5.203 (2016), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
