European Journal of Drug Metabolism and Pharmacokinetics
Editor-in-Chief: J. Singh

The European Journal of Drug Metabolism and Pharmacokinetics covers all aspects of pre-clinical and clinical pharmacokinetics & pharmacodynamics, including drug disposition, metabolism, transport and interactions, therapeutic drug monitoring, pharmacokinetic/pharmacodynamic relationship, bioavailability and biopharmacy. The journal welcomes publications in the field of pharmacokinetic and pharmacodynamic modeling. Analytical methods validation linked with a pharmacokinetic study will also be considered.

The journal publishes original research articles, short communications, review articles, leading articles, current opinion articles on special topics, and conference proceedings. Letters to the Editor are welcomed and will be considered for publication.

Articles published in European Journal of Drug Metabolism and Pharmacokinetics may be accompanied by plain language summaries to assist patients, caregivers and others in understanding important medical advances.

The European Journal of Drug Metabolism and Pharmacokinetics publishes six issues a year.

Impact Factor: 1.400 (2016), Journal Citation Reports®
