Environmental Evidence
Editor-in-Chief: A. Pullin

- Official journal of the Collaboration for Environmental Evidence
- Publishes systematic reviews on environmental management interventions
- Renowned Editorial Board

Environmental Evidence facilitates rapid publication of systematic reviews and evidence syntheses on the effectiveness of environmental management interventions and on the impact of human activities on the environment.

Giving authors in their area of expertise the opportunity to publish open access
- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
