Journal of The Institution of Engineers (India): Series B

Electrical, Electronics & Telecommunication and Computer Engineering

Editor-in-Chief: P.P. Das

- ▶ **The Institution being the largest multidisciplinary professional body of engineers have large Membership base. As a result of which journals are widely circulated throughout the country among individual members and as well as among various reputed educational and research institutes. The Journals published by the Institutions contains articles of high quality by renowned researchers/scientists and scholars having relevance to recent development and research work in the field of Electrical Engineering/ Electronics & Telecommunication Engineering/Computer Science. The articles published in the Journal encompasses a wide range of field such as Power System, Power Electronics, Instrumentation and Control, High Voltage Engineering, Energy Studies, Communications, Circuits and Devices, Antenna and Microwaves, Computer Architecture, Algorithms, Signal Processing, Image Processing, Computer Communication Networks, Data Base System to name a few.**

The Institution of Engineers (India) is the largest professional body of Engineers established in 1920 and was granted the Royal Charter in 1935. IEI encompasses 15 Engineering Disciplines and one Interdisciplinary Division. It is worthy to mention that the Institution had accredited the course curriculum of Indian Institute of Technology (IIT) Kharagpur, the first IIT established in India. It also has the distinction of producing the maximum number of engineers in the core engineering disciplines, thus augmenting the nation building efforts. The Institution has a national presence of over 100 State and Local Centres in India and further extended its services to the International Community with five Overseas Chapters around the world. It has the full Membership of World Federation of Engineering Organization, Federation of Engineering Institution of South and Central Asia, Federation of Engineering Institution of South and the Pacific, Commonwealth Engineers Council, *Federation of International du Beton* and World Mining Congress. In a landmark achievement, the Institution obtained full Membership of the Engineers Mobility Forum for India at the Biennial International Engineers Meeting held at Kyoto, Japan in the year 2009. To promote the study of Engineering with a view to disseminate the information for facilitating the scientific and economic development of Engineering in India, The Institution of Engineers (India) is organizing Lectures, Seminars, Workshops, Indian Engineering Congress, International Conferences etc. at various parts of the country.
