

International Aquatic Research

Editor-in-Chief: M. Reza Ghomi

International Aquatic Research is a fully sponsored, peer-reviewed open access journal published under the brand SpringerOpen. The journal is an international journal that publishes original research articles, short communications, and review articles in a broad range of areas relevant to all aspects of aquatic sciences (freshwater and marine waters). The Journal specifically strives to increase the knowledge of most aspects of applied researches in both cultivated and wild aquatic animals in the world. The journal is fully sponsored, which means authors do not have to pay to submit. The journal operates a single-blind peer review process.

The main research areas include:

- Aquaculture
- Ecology
- Food science and technology
- Molecular biology
- Nutrition
- Physiology
- Water quality

Giving authors in their area of expertise the opportunity to publish open access

- ▶ High visibility thanks to unrestricted online access
- ▶ Rigorous peer-review and high-quality author services
- ▶ Creative Commons licensed – authors retain copyright
- ▶ Citation tracking and inclusion in bibliographic databases
- ▶ Easy compliance with open access mandates
