The Brazilian Journal of Science and Technology is a peer-reviewed open access journal published under the brand SpringerOpen.

The Journal explores and analyzes the significant potential of sustainability-oriented Research and Development (R&D) initiatives, particularly as they play out in and around Brazil.

Drawing on multiple disciplines such as agricultural sciences, biotechnology, energy policy, environmental studies, and materials science, the journal publishes peer-reviewed empirical research and novel commentary. Special Issues promote ongoing discourse on Entertainment Engineering, Education for Sustainability, and Innovation, Technology and Sustainability: Brazilian and Nordic Experiences. Additional topics of interest include conservation of the Amazon rainforests; the impacts of Brazilian R&D policies on economic development; and renewable energy technologies. A fully Gold Open Access journal, BJST is of interest to scholars and students, decision-makers at research organizations and government agencies, and enterprises undertaking applied R&D to drive innovations.

Giving authors in their area of expertise the opportunity to publish open access
- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
