Annals of Occupational and Environmental Medicine

Edited by: S.B. Ko
Managing Editor: J.-H. Kim

Indexed in PubMed Central, PubMed, Web of Science and Scopus
Official journal of the Korean Society of Occupational and Environmental Medicine
High global visibility for your research

Annals of Occupational and Environmental Medicine (AOEM) publishes a wide range of original contributions relevant to occupational and environmental medicine and related fields. AOEM aims to provide answers to important issues and key challenges in the field and to facilitate translation of evidence into practice. Topic areas focus on, but are not limited to, interactions between work and health, covering occupational and environmental epidemiology, toxicology, hygiene, diagnosis and treatment of diseases, management, organization and policy.

Giving authors in their area of expertise the opportunity to publish open access

High visibility thanks to unrestricted online access
Rigorous peer-review and high-quality author services
Creative Commons licensed – authors retain copyright
Citation tracking and inclusion in bibliographic databases
Easy compliance with open access mandates

Electronic access
