Journal of Endocrinological Investigation

Official Journal of Italian Society of Endocrinology (SIE)
Editor-in-Chief: L. Bartalena

The *Journal of Endocrinological Investigation* is a well-established, e-only endocrine journal founded 36 years ago in 1978. It is the official journal of the Italian Society of Endocrinology (SIE), established in 1964. Other Italian societies in the endocrinology and metabolism field are affiliated to the journal: Italian Society of Andrology and Sexual Medicine, Italian Society of Obesity, Italian Society of Pediatric Endocrinology and Diabetology, Clinical Endocrinologists’ Association, Thyroid Association, Endocrine Surgical Units Association, Italian Society of Pharmacology.

The journal was founded by Aldo Pinchera, Giovanni Faglia, Antonio Liuzzi, Guido Menzinger, Marcella Motta and Giovan Battista Serra. Aldo Pinchera was the first Editor-in-Chief followed by Giovanni Faglia and Ezio Ghigo and by the current Editor-in-Chief Luigi Bartalena.

The *Journal of Endocrinological Investigation* is an international journal with an international editorial board, covering all fields of endocrinology and metabolism, including neuroendocrinology, thyroid, parathyroids, adrenal glands, andrology, gynecological endocrinology, obesity, diabetes, pediatric and geriatric endocrinology. Both clinical, translational and basic original studies, as well as opinions, commentaries, solicited and unsolicited reviews, clinical practice guidelines and position statements, letters to the Editor are published after being submitted to rigorous peer review.

The Journal of Endocrinological represents an essential reading not only for endocrinologists engaged in endocrinological research but also for those primarily involved in daily clinical practice.

Impact Factor: 2.633 (2016), Journal Citation Reports®
