Journal of Ocean Engineering and Marine Energy
Editor-in-Chief: R.C. Ertekin

► Publishes articles of archival value selected after a rigorous peer review
► Covers all areas of ocean engineering and marine energy, including emerging and interdisciplinary topics
► Bridges the gap between physical oceanography and ocean engineering
► Addresses both academics and professionals
► Authors may choose between two options: publishing open access (upon the payment of a basic publication fee) or traditional subscription-based publishing (which does not involve a publication fee)

This journal publishes original articles on research and development spanning ocean engineering and marine energy. Coverage includes coastal engineering, offshore engineering, marine renewable energy, and climate change and the resulting sea-level rise.
