Tropical Diseases, Travel Medicine and Vaccines

Editor-in-Chief: M. Riddle

- First fully open access journal to focus on intersecting topics in tropical diseases, travel medicine and vaccines
- Expert international Editorial Board
- Covers research related to the prevention and management of healthcare and diseases in international travelers

Tropical Diseases, Travel Medicine and Vaccines is the first open access journal in the field of travel medicine and the first journal to focus on intersecting topics in tropical diseases, travel medicine and vaccines. Considering the increased mobility of world populations and increasing globalization of world economies, the journal meets the growing need for the dissemination of research with strong implications for world health and medicine.
