Clinical Phytoscience

International Journal of Phytomedicine and Phytotherapy

Editor-in-Chief: C. Bachert

Clinical Phytoscience is an international, peer-reviewed open access journal published under the SpringerOpen brand. The journal is dedicated to promoting the exchange and discussion of all research areas relevant to phytotherapy in the form of high-quality evidence-based clinical studies and relevant pharmacological studies in the key areas of interest (upper and lower airways, pneumology; gynecology; urology; nephrology; pediatrics; intestinal tract; hepatology; diabetes/metabolic syndrome; immunology and microbiology; hygiene and analytics).

Giving authors in their area of expertise the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates

Electronic access
