Clinical Hypertension
Editor-in-Chief: W.-J. Chung

► Indexed in PubMed and PubMed Central
► A peer-reviewed open access journal
► Publishing costs are covered by the Korean Society of Hypertension

Clinical Hypertension is the official journal for the Korean Society of Hypertension. As an open access journal it aims to provide a platform for the dissemination of research in all areas of hypertension, research and vascular disorders, for the international community.

The journal audience includes, but is not limited to clinicians, researchers, and health care providers within the field of hypertension.

Giving authors in their area of expertise the opportunity to publish open access
► High visibility thanks to unrestricted online access
► Rigorous peer-review and high-quality author services
► Creative Commons licensed – authors retain copyright
► Citation tracking and inclusion in bibliographic databases
► Easy compliance with open access mandates
