Biomanufacturing Reviews
Editor-in-Chief: P.J. da Silva Bartolo

- Publishes review papers in biomanufacturing, tissue engineering and regenerative medicine
- Connects original articles, innovations published in patents, new information on materials, technology, cell-integrated biological systems and more
- Covers design, fabrication, assembly and measurement of bio-elements into structures, devices and systems

This journal publishes review articles on science, technology and clinical applications of biomanufacturing. Covers design, fabrication, assembly and measurement of bio-elements into structures, devices and systems, and integration with larger structures.
