Energy, Ecology and Environment
Editor-in-Chief: B. Chen

- Emphasizes integrated, discipline-spanning approaches to global natural resource challenges
- Covers energy economics; life cycle assessment; carbon capture, storage and sequestration and much more
- A publication of the Joint Center on Global Change and Earth System Science of the University of Maryland and Beijing Normal University

This journal offers a discipline-spanning forum for investigating shortages of natural resources, impacts on ecosystems and deterioration of the natural environment. Coverage focuses on integrated solutions, counterbalancing the dominant economic approach.
