Journal of the Indian Society for Probability and Statistics

Editor-in-Chief: D. Kundu

The journal publishes original research and review articles in all branches of probability and statistics. The primary objective of the journal is to foster and propagate the knowledge of statistics, probability and operations research and their applications among academicians, practitioners and users of statistics and probability. It aims at bridging the gap between academicians and practitioners. As well as, the journal encourages researchers to publish high-quality research work and provides a forum for creating world-class statisticians in imparting globally focused statistical education. This is an official publication of the Indian Society for Probability and Statistics, Andhra Pradesh, India.
