## Living Reviews in Computational Astrophysics

Editor-in-Chief: E. Müller

*Living Reviews in Computational Astrophysics* is a new peer-reviewed open access journal. We aim at offering a comprehensive survey of research in computational astrophysics that physicists will know is up-to-date and reliable. *Living Reviews* is unique in that it only publishes refereed review articles whose authors commit to update them regularly.

*Living Reviews in Computational Astrophysics* was founded by the Max Planck Institute for Astrophysics (MPA) in 2014. Currently, APCs are fully covered by the MPA and Springer.

*Cover Figure:* 3D simulations in a 60x60 degree wedge of Rayleigh-Taylor instabilities in a proto-neutronstar.

Giving authors in their area of expertise  
the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
