Risk Management
Editor: I. Lončarski

► Bridges the gap between academia and industry by quantitatively addressing risk management issues of high relevance and importance to practitioners, with academic rigor
► Publishes research related to banks and insurance companies, asset management companies, and/or non-financial corporations

Risk Management (RM) is focused on topics related to financial risk management (financial risks), and to publishing research related to other types of risks at the corporate, institutional, and/or regulatory level that are perceived to be important and interconnected (for example, various operational risks).

The journal's target audience are practitioners, regulators, academics, and those predominantly interested in the quantitative perspective on the most recent issues, advances and practices in the field of risk management.

Impact Factor: 0.519 (2016), Journal Citation Reports®
