Probability Theory and Related Fields
Managing Editors: M. LEDOUX; F. Martinelli

- Publishes research papers in modern probability theory, its relations to analysis, geometry and other areas in mathematics, and its various fields of application.
- Contains survey papers on emerging areas of importance.

This journal publishes research papers in modern probability theory, its relations to analysis, geometry and other areas in mathematics, and its various fields of application. It also contains survey papers on emerging areas of importance.

The subjects covered in Probability Theory and Related Fields include: statistical mechanics, ergodic theory, mathematical biology, filtering theory, mathematical statistics, theoretical computer science, optimization and control, stochastic geometry, and stochastic algorithms.

Impact Factor: 1.895 (2016), Journal Citation Reports®
