- Ranks on position 12 in "Pediatrics"
- 98% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

International Pediatric Nephrology Association

Pediatric Nephrology publishes original clinical research related to acute and chronic diseases that affect renal function, blood pressure, and fluid and electrolyte disorders in children. Studies may involve medical, surgical, nutritional, physiologic, biochemical, genetic, pathologic or immunologic aspects of disease, imaging techniques or consequences of acute or chronic kidney disease. There are 12 issues per year that contain Editorial Commentaries, Reviews, Educational Reviews, Original Articles, Brief Reports, Rapid Communications, Clinical Quizzes, and Letters to the Editors.

Impact Factor: 2.516 (2016), Journal Citation Reports®
