Strahlentherapie und Onkologie
Journal of Radiation Oncology, Biology, Physics
Editor-in-Chief: R. Fietkau; F. Wenz

► Founded in 1912, the oldest oncological journal
► Covers all aspects of oncology with focus on radiooncology, radiation biology and radiation physics
► Publishes original articles, review articles, case studies and short communications
► Includes a literature review with annotated articles

Founded in 1912 and published monthly, Strahlentherapie und Onkologie is a scientific journal that covers all aspects of oncology with focus on radiooncology, radiation biology and radiation physics. The articles are of interest not only to radiooncologists but to all physicians interested in oncology, as well as to radiation biologists and radiation physicists. The peer-reviewed journal publishes original articles, review articles and case studies, scientific short communications and a literature review with annotated articles that inform the reader of new developments in the disciplines concerned. This allows for a sound overview of the latest results in radiooncology research.

Contributions are published in English and German, with all articles having English summaries and legends. The journal is the official publication of several scientific radiooncological societies and publishes the relevant communications of these societies.

Impact Factor: 2.735 (2016), Journal Citation Reports®
