## **Smart Innovation, Systems and Technologies**

Series Editors: R.J. Howlett, L.C. Jain

The Smart Innovation, Systems and Technologies book series encompasses the topics of knowledge, intelligence, innovation and sustainability. The aim of the series is to make available a platform for the publication of books on all aspects of single and multi-disciplinary research on these themes in order to make the latest results available in a readily-accessible form. Volumes on interdisciplinary research combining two or more of these areas is particularly sought.

The series covers systems and paradigms that employ knowledge and intelligence in a broad sense. Its scope is systems having embedded knowledge and intelligence, which may be applied to the solution of world problems in industry, the environment and the community. It also focusses on the knowledge-transfer methodologies and innovation strategies employed to make this happen effectively. The combination of intelligent systems tools and a broad range of applications introduces a need for a synergy of disciplines from science, technology, business and the humanities. The series will include conference proceedings, edited collections, monographs, handbooks, reference books, and other relevant types of book in areas of science and technology where smart systems and technologies can offer innovative solutions.

High quality content is an essential feature for all book proposals accepted for the series. It is expected that editors of all accepted volumes will ensure that contributions are subjected to an appropriate level of reviewing process and adhere to KES quality principles.

\*\* Indexing: The books of this series are submitted to SCOPUS, EI-Compendex and Springerlink.

### **Recently published:**

I. Hatzilygeroudis, V. Palade (Eds.)

**Advances in Hybridization of Intelligent Methods**  
Models, Systems and Applications, Vol. 85

A. Esposito, M. Faundez-Zanuy, F.C. Morabito, E. Pasero (Eds.)

**Multidisciplinary Approaches to Neural Computing**  
Vol. 69

S.C. Satapathy, A. Joshi (Eds.)

**Information and Communication Technology for Intelligent Systems (ICTIS 2017) - Volume 2**

Vol. 84
