Mediterranean Journal of Mathematics

Editor-in-Chief: F. Altomare

- ▶ A publication issued by the Department of Mathematics of the University of Bari
- ▶ Features original, high-quality peer-reviewed papers containing significant results across all fields of mathematics
- ▶ Presents the work from mathematicians across the world
- ▶ Replaces the "Conferenze del Seminario di Matematica dell'Università di Bari" which has been in publication from 1954 until 2003
- ▶ 98% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

The *Mediterranean Journal of Mathematics* (MedJM) is a publication issued by the Department of Mathematics of the University of Bari. The new journal replaces the Conferenze del Seminario di Matematica dell'Università di Bari which has been in publication from 1954 until 2003.

The *Mediterranean Journal of Mathematics* aims to publish original and high-quality peer-reviewed papers containing significant results across all fields of mathematics. The submitted papers should be of medium length (not to exceed 20 printed pages), well-written and appealing to a broad mathematical audience.

In particular, the *Mediterranean Journal of Mathematics* intends to offer mathematicians from the Mediterranean countries a particular opportunity to circulate the results of their researches in a common journal. Through such a new cultural and scientific stimulus the journal aims to contribute to further integration amongst Mediterranean universities, though it is open to contribution from mathematicians across the world.

Impact Factor: 0.868 (2016), Journal Citation Reports®
